

Art – Miss Mawer

I'm Miss Mawer and I'm going to be the new Art subject lead at Hanwell Fields.

My love for art began when I studied it for GCSE. I realised how much fun being creative was and loved working on skills such as drawing and painting to improve my skills. I went onto study an Art Foundation diploma. Here I learnt about all the other areas of art & design that I could explore, such as: print, photography, sculpture, collage and most of all, design. This course allowed me to try all different styles of art and decide which specific area of art & design I wanted to study for my degree – Fashion design! I absolutely loved my degree, three years of working towards my final collection where I designed and made 8 outfits which were all created using second-hand patchwork denim.

Art is wonderful! It can represent emotion, hobbies, people, places – anything! It can be used as a way to feel peaceful and happy or to go crazy and splash paint everywhere! Anything you can create is 'art'!

Here is the Sway I have put together with an activity you can try at home:
