

Learning Destination – Nomination Form

We we know that there are many brilliant clubs and activities out there... but until somebody shows us where they are, they remain a mystery!

If you attend a structured club or activity that you think would make a great Children's University™ Learning Destination please speak to them and tell them a little bit about the Children's University™ and how you collect CU hours in your Passport to Learning. Becoming a validated Learning Destination for Children's University is free and at no cost to themselves.

If they are interested in becoming involved or learning more about us, please complete their contact details below, tell us a bit more about what you do there and about why you think they'd make a great Learning Destination. We will then be able to get in touch with them to tell them more about the Children's University™ scheme.

Alternatively, if you have visited an inspirational local public destination such as a museum, arts centre, etc. where you have completed a workshop, a structured activity or a trail (anything where your learning has been structured whilst there), and you think that it should be a Children's University™ Learning Destination, let us know!

If they meet our validation standards and wish to join us, you'll then be able to use your CU Passport to collect CU hours through them in the future!

We will award 1 CU hour of learning for your Children's University™ Passport for your Learning Destination nomination/s (1 CU hour per person).

Your name and school class:

Nominated organisation:

Address of organisation:

Website or email address:

What do you do there?

.....

.....

Why will it make a great Learning Destination?

.....

.....

.....
